

MARINE SOFTWARE LIMITED

**MARINE
PURCHASING
SYSTEM**
FOR WINDOWS

'Simplicity is the key to Success'

**A complete Purchasing system tailored for the Maritime Industry,
designed to control all aspects of fleet procurement.**

INTRODUCTION

The Marine Purchasing package offers a fully integrated, multi-currency system. This enables the creation of various types of requisitions, offering strict authorisation levels and tightly controlling budget expenditure.

PURCHASING FEATURES

- Full transparency between ship and office systems
- Central Supplier and Account code Management for entire fleet
- The ability of creating various types of orders from Consumables and Spare Parts to Service Orders and free hand
- Can produce *'Request for Quotations'* and store prices for easy comparison
- Budgets can be easily set and monitored with each order raised, even on a monthly basis
- New 'Documents' add on to allow both ship and office users in attaching any external documents, enabling all electronic correspondence to be stored in one safe place
- A popular option is to integrate this system with your existing financial package for the data export of *Purchase Orders* and *Goods Receipts*
- Can be fully integrated with the *Marine Storekeeper* system
